Subject: TSCA Section 8(a) PFAS Data Call Rulemaking - PFAS Scope - Possibility of a short meeting with OPPT tomorrow or Friday to discuss the CompTox Dashboard lists
Attachments: PFAS scope_working copy.docx

Hi, Tony.

This is Walter Cybulski from ORD/OSAPE. OPPT is still determining what the PFAS Scope will be for the TSCA Section 8(a) PFAS Data Call rulemaking, which CCTE provided some assistance with early in the process. I am attaching their latest Options document. What the workgroup lead is requesting at present is a better understanding/further explanation of what comprises the different PFAS lists that we provided from the ORD CompTox Dashboard (see Option 1 - TSCA Chemicals and Non-TSCA Chemicals [p. 2]). I felt it best for CCTE to answer them directly since you can easily explain it and address any follow up questions they may have. In all, the workgroup lead just wants to make sure that she has a good understanding of those lists for when she continues to brief management. I would like to be part of the conversation too, so was going to see if I could set up a quick, 30-minute Teams meeting to have with them tomorrow (8/6) or Friday (8/7) to field their questions. Is that possible for you or someone else from CCTE to have a meeting this week? Let me know, and who I should invite from CCTE if so. Thank you if you are all able to help on short notice with their questions!

- Walter
